Cango Inc. Reports First Quarter 2021 Unaudited Financial Results

SHANGHAI, May 31, 2021 /PRNewswire/ -- Cango Inc. (NYSE: CANG) ("Cango" or the "Company"), a leading automotive transaction service platform in China, today announced its unaudited financial results for the first quarter of 2021.

First Quarter 2021 Financial and Operational Highlights

- Total revenues were RMB1,123.8 million (US\$171.5 million), a 356.8% increase from RMB246.0 million in the same period of 2020, outperforming the high end of the Company's guidance by 7.0%. The increase was mainly driven by the increased amounts of both financing transactions the Company facilitated and car trading transactions in the first quarter of 2021.
- Car trading transactions revenues were RMB571.6 million (US\$87.2 million), or 50.9% of total revenues in the first quarter of 2021.
- Automotive financing facilitation revenues were RMB411.7 million (US\$62.8 million), a 243.0% increase from RMB120.0 million in the same period of 2020.
- After-market services facilitation revenues were RMB62.5 million (US\$9.5 million), a 27.5% increase from RMB49.1 million in the same period of 2020.
- The amount of financing transactions the Company facilitated in the first quarter of 2021 was RMB10,394.9 million (US\$1,586.6 million). The total outstanding balance of financing transactions the Company facilitated was RMB47,533.6 million (US\$ 7,255.1 million) as of March 31, 2021.
- M1+ and M3+ overdue ratios for all financing transactions that remained outstanding and were facilitated by the Company were 1.23% and 0.54%, respectively, as of March 31, 2021, compared to 0.98% and 0.42%, respectively, as of December 31, 2020.
- The number of dealers covered by the Company was 47,017 as of March 31, 2021, compared to 48,487 as of December 31, 2020. The decrease was a result of Cango's efforts to optimize the efficiency of its dealership network by removing certain dealers that failed to meet the Company's standards for operating risks and/or transaction referral capabilities.

Mr. Jiayuan Lin, Chief Executive Officer of Cango, commented, "We are pleased with our gradual but steady progress in recent months as China's economy and auto consumption rebound from the impact of the Covid-19 pandemic. Our total revenues increased 356.8% year-over-year to RMB1,123.8 million, exceeding the top end of our guidance range, as our efforts to deepen our roots across our three main business lines - car trading transactions, after-market services facilitation and automotive financing facilitation - paid off. We are excited to have formed a partnership with Zhengzhou Nissan in April to develop a new retail model for automotive transaction in China's lower-tier markets, and believe this field has immense potential."

"While we are optimistic about China's auto industry in the long run, we remain mindful of the challenges facing the market at the moment amid ongoing supply chain uncertainty. We expect that chip shortage in the automotive industry may persist for a long time, which could impact our overall business. Concurrently, domestic financial supply and regulatory environment are also undergoing profound changes. We will closely watch and actively respond to the situation, proactively stepping up efforts to cope with any form of uncertainty and keep pace with the changing industry trends through continuous product innovations," Mr. Lin concluded.

Mr. Yongyi Zhang, Chief Financial Officer of Cango, stated, "We are pleased with our solid start to the year, with first quarter total revenues surging 356.8% year-over-year to reach a new record high of RMB1.1 billion. Moreover, we also managed to deliver operating income of RMB159.5 million even as our bottom line was impacted by the investment loss in Li Auto. Our robust balance sheet positions us well to navigate

ongoing uncertainty in the industry and to support the development of our new business initiatives. As the definitive and leading automotive transaction services platform in China, our commitment to delivering long-term sustainable growth while also improving operational efficiencies remains paramount. "

Total operating cost and expenses in the first quarter of 2021 were RMB964.2 million (US\$147.2 million) compared to RMB327.3 million in the same period of 2020. Definition of Overdue Ratios

The Company defines "M1+ overdue ratio" as (i) exposure at risk relating to financing transactions for which any installment payment is 30 to 179 calendar days past due as of a specified date, divided by (ii) exposure at risk relating to all financing transactions which remain outstanding as of such date, excluding amounts of outstanding principal that are 180 calendar days or more past due.

The Company defines "M3+ overdue ratio" as (i) exposure at risk relating to financing transactions for which any installment payment is 90 to 179 calendar days past due as of a specified date, divided by (ii) exposure at risk relating to all financing transactions which remain outstanding as of such date, excluding amounts of outstanding principal that are 180 calendar days or more past due.

Use of Non-GAAP Financial Measure

In evaluating the business, the Company considers and uses Non-GAAP adjusted net loss, a non-GAAP measure, as a supplemental measure to review and assess its operating performance. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company defines Non-GAAP adjusted net loss as net loss excluding share-based compensation expenses. The Company presents the non-GAAP financial measure because it is used by the management to evaluate the operating performance and formulate business plans. Non-GAAP adjusted net loss enables the management to assess the Company's operating results without considering the impact of share-based compensation expenses, which are non-cash charges. The Company also believes that the use of the non-GAAP measure facilitates investors' assessment of its operating performance.

Non-GAAP adjusted net loss is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This non-GAAP financial measure has limitations as analytical tools. One of the key limitations of using Non-GAAP adjusted net loss is that it does not reflect all items of expense that affect the Company's operations. Share-based compensation expenses have been and may continue to be incurred in the business and are not reflected in the presentation of Non-GAAP adjusted net loss. Further, the non-GAAP measure may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

The Company compensates for these limitations by reconciling the non-GAAP financial measure to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance. The Company encourages you to review its financial information in its entirety and not rely on a single financial measure.

Reconciliations of Cango's non-GAAP financial measure to the most comparable U.S. GAAP measure are included at the end of this press release.
